## Career Objective

Aspiring Computer Science and Engineering graduate with a strong foundation in technical concepts and problem-solving skills, seeking a challenging role in a growth-oriented organization where I can apply my knowledge and continue to learn. Committed to contributing to team success through hard work, attention to detail, and a passion for technology.

## Education

Bachelor of Technology (B.Tech) – Computer Science and Engineering

KITS Akshar Institute of Engineering and Technology, Guntur, Guntur

Duration: 2021 – 2025

CGPA: 7.0

## Technical Skills

Programming Skills: Python, C, C++, Java, HTML, CSS, JavaScript

Databases: MySQL

Others: Windows OS, MS Office, GitHub

## Academic Projects

Automated Courier Management System

Final Year Project – B.Tech in Computer Science Engineering, 2025

KITS Akshar Institute of Engineering and Technology, Guntur

- Developed a full-stack web-based Courier Management System to automate parcel booking, real-time tracking, and delivery workflows.
- Built intuitive interfaces for admin, employee, and customer roles using HTML5, CSS3, and JavaScript.

- Used Python (Flask/Django) and SQLAlchemy for backend APIs and secure data handling.
- Integrated NumPy and Pandas to implement route optimization and delivery analytics.
- Created dashboards with Streamlit and data visualizations using Matplotlib for performance insights.
- Enabled interactive features like location-based tracking, delivery status updates, and user feedback.
